2026 COLLECTION

SPRING | SUMMER

# A letter from our MD

Hi All

2026 marks an exciting new chapter for Upper Canada, with one of our strongest and most innovative product collections to date.

This year, we are proud to introduce our **first Global Catalogue**, reflecting our growing presence across **60 countries throughout the UK and Europe and beyond**. In 2026, we are launching **144 new products** across our portfolio of bath, beauty, skincare, and wellness brands—each designed to meet evolving consumer trends and deliver strong commercial performance.

Key highlights include the relaunch of **Wanderflower** and **Yes Studio**, two of our most important brands. Wanderflower truly puts the “wander” into self-care, inviting customers to experience spa-inspired rituals from destinations such as **Thailand, Greece, and Japan**. Drawing on the unique bathing traditions of each location, the range features carefully curated fragrances, products, and gifting options that offer a sense of escapism and discovery—without leaving home. The brand also presents exciting new merchandising opportunities in store.

**Yes Studio**, Upper Canada’s best-selling brand over the past two years, returns in 2026 with refreshed packaging, its much-loved **Cherry and Coconut** fragrances, and a highly on-trend **Strawberry Matcha** addition. New product innovations, including a layered body oil and whipped shower foam, are designed to drive repeat purchase and appeal to a trend-conscious consumer, with strong gifting programmes planned for autumn.

Following our acquisition of the **Look Beauty Group** in 2025—**My Ingredients, Masque Bar, and Animalz**—we continue to expand our **Made in Korea** skincare offering. New launches align closely with leading K-beauty trends for 2026, including **PDRN** for skin repair and hydration, and **Tranexamic Acid** for brightening and addressing uneven skin tone. These innovations build on the success of our collagen colour-changing mask, a global bestseller known for delivering a sought-after “glass skin” effect.

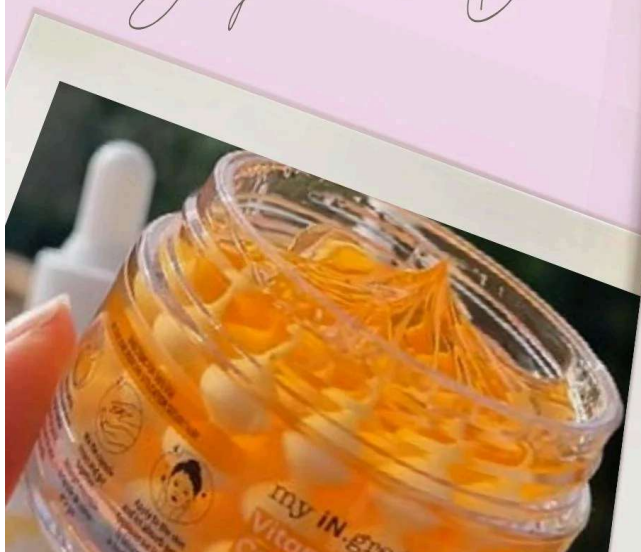

Completing the catalogue are new launches across **Danielle, Erase Your Face, and Aroma Home**, alongside a curated **Top 10** selection highlighting the products we expect to be standout performers in the year ahead.

We are proud to tell you that **Upper Canada remains in a position of strength**, delivering growth in 2025 and entering 2026 with confidence. This is underpinned by the continued support of you, our loyal retail partners and our ongoing investment in **product development, design, and innovation**.

We look forward to continuing our partnership with our valued retail customers across the UK and Europe, and we sincerely thank you for your ongoing support and hope your businesses stay strong, resilient and poised for growth in 2026.

Warm regards,

*Stephen & Ben*

NEW FOR SS26

THE  
WORLD SPA  
COLLECTION

*Inspired by the mindful bathing rituals of Japan,  
where purity, quietude, and daily ceremony intertwine.*

This delicate blend pairs the gentle floral notes of jasmine tea, reminiscent of tea house calm, with the creamy softness of rice milk, echoing traditional beauty rituals and soothing onsen waters.

The result is a scent that is subtle, comforting, and steeped in the refined elegance of Japanese self-care.

# ERASE YOUR FACE<sup>®</sup>

## DID YOU KNOW?

- Makeup wipes are the third most wasteful product in the world.
- Everyday 20 million makeup wipes are being thrown away.
- The average makeup wearer will use 730 disposable wipes every year!
- It takes 100 years for one makeup wipe to break down in landfill.

Good quality sleep is vital to our physical and mental health. Being sleep deprived can have a long lasting effect on both our mind & body.

#### KEY REASONS WHY WE ALL NEED TO ENSURE WE ARE GETTING ENOUGH SLEEP:

#### 1: Helps our brain function:

Sleep helps us to stay alert and clear-headed which in turn enables us to problem-solve, learn new things and easily make decisions. If we do not get enough sleep we experience brain fog, slow reactions and impaired judgement.

#### 2: Keeps emotions in check:

When we are fully rested, we are better able to control our emotions and behaviour, without adequate sleep, adults may experience mood swings and increased feelings of anxiety and depression.

#### 3: Reduces disease risk:

Lack of sleep affects our immune systems and our ability to fight common viruses, like colds & flu. On going sleep deprivation can also increase risk of heart disease, kidney disease, high blood pressure, diabetes and stroke.

#### 4: Keeps weight under control:

Sleep deprivation affects our body's ability to regulate appetite hormones.
