

Plantophile®

*(en.) a lover of plants*

Autumn - Winter 2022 - 2023

[www.plantophile.com](http://www.plantophile.com)

## What's new....

The fact remains that items with plants ALWAYS have to be shipped on a pallet. These items must remain upright during the trajectory, the only way to guarantee this is on a pallet.

BUT all NON-LIVING GOODS can also be sent to you by parcel. In this case we can offer you more flexible terms.

## Summarized ....

Living goods = pallet shipment

- Terrariums
- Aquatic plants
- Plant deco

Non-living goods = parcel shipment

- Accessories (pots without plants and more)
- Dried flowers
- Pyromaniac – candle collection

**Ground rule:** when you add living plants to your order we need to ship on pallets, this means higher minimum order and franco amounts. You will find the detailed sales conditions for your country on top of your pricelist.

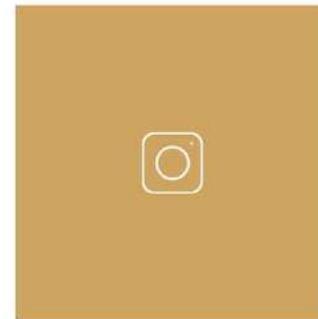

With these new conditions we hope to be able to serve you even better this upcoming season and we are looking forward to hear from you.

With love, *The Plantophile team*
