# ABOUT US

## How it all started

Pineut is Femke and Marlies' hobby that got a tad out of hand. Two friends who love flavours, herbs and spices. What once started with a little experimenting in the attic, has now grown into *THE do-it-yourself brand in the Netherlands!* In the previous years not only our team, but also our range has grown considerably. And we are still working day in day out on the newest combinations and the tastiest do-it-yourself products.

## Our mission

We believe that having a good and satisfying job is the basis for a more independent, more enjoyable and better life. Unfortunately, too many people are still left behind as they can not participate. As a result, differences between rich and poor, developed and underdeveloped are increasing. We want to make a difference with our products.

Pineut is the ultimate DIY brand offering surprising gifts for every occasion throughout the year, allowing you to truly show someone your appreciation. This way, you can easily give someone a moment of enjoyment.

By working with people who, with a little guidance, have a lot to offer society. Pineut's products are largely made within our sheltered workplace, by people who have *poor employment prospects*. They transform our natural ingredients into delicious neuten, packaged in a stylish bottle or flacon. The Pineut production team of Stroomopwaarts explains how they do this.

## Social Impact

*A dream come true!* Here we offer work all year round for 60 people who need an extra helping hand. We do this together with Stroomopwaarts. We provide the work, they provide (for) the team.

Marlies says about this: "Personally I think this is the best thing about Pineut; the combination, or win-win, of social entrepreneurship and business. By selling

our flavoursome products we can be of direct significance to people who need just that little bit more help than others. And in this way we can contribute to self-reliance, self-confidence and equal opportunities for everyone. And let it be known... in our team we only have top performers!"

# WATER TWIST

Just add water and make your own refreshing, healthy drink in no time *Alcohol-free* and without *added sugars*.

- 1. Add 2. Wait 3. Enjoy! 4. Refill

Watertwist comes in different flavours and in two versions: in a gift-worthy carafe or in a handy multi-portion pouch.

# Let's make it *together*

**We're Pineut.** A club of idealistic go-getters with a mission: to achieve equal opportunities for everyone! At Pineut, we believe that everyone should be able to join in and participate. After all, everyone possesses a certain talent, big or small, and should be given the opportunity to utilize that talent. This way, moments of enjoyment for you suddenly become direct opportunities for someone else. Isn't that great? Let's create something beautiful together.
