ILLUMINATING IDEAS

Store sunshine for the night time

Inside the jar there is an efficient solar cell, a rechargeable battery and LED lamp. At night the LED lamp glows for 5 hours on a full charge.

Solar power
A solar panel charges the battery during the day. Sun Jars work best in direct sunshine, outside or in a sunny window.

Sun Jar

Code: SK SUNJAR1

Material	Glass jar, stainless steel clasp, rubber seal, solar panel, LED
Pack Size	12
Pack type	Full colour printed box
In pack	W126 x H201 x D126mm
Design	Tobias Wong

Solar powered light inside a frosted glass mason jar

Capture some sunshine for night-time!
Switches on automatically when it gets dark.
A beautifully simple night light.

Use outside or indoors

A perfect garden light or night light for a bedroom.
Mason Jars are traditional, beautiful and watertight by their very nature, so the Sun Jar can withstand even the wettest of summers.

Automatic night light

You may have noticed that there is no switch on the Sun Jar - in fact there are no visible controls at all. A light sensor switches on and off automatically when it gets dark or light. Sun Jars MUST be in the dark to light up. Frosted glass diffuses the light, giving the ambient appearance of sunlight.
